20	Renewal fee	€1,810,-

Paul Janssen Futurelab Patent Calculator

This report shows the data you have selected in the calculator. The estimated patent costs include both general fees and costs of the patent attorney and examiner ('Office Actions'). Additional costs that may arise from large or extensive patent applications, for small business entities, or due to corrective actions or litigation procedures are not included. For educational purposes only. This tool is tested periodically and updated before the start of each new course.
